**v2 edit:** added a pommel! Just print it and put it on top of the arm for a nicer grip when you take a towel! (thanks to @jurassic73 for the feedback)

15cm wide paper towel holder, with minimalistic geometric design.

It saves a lot of plastic too! It's just 60-70g!

It does print without supports!

Arm comes in different widths and lengths, choose the one that fit you the most!

Print the pommel which matches the chosen diameter! (2cm or 3cm)

.f3d file included

Printer currently out of service, finished print coming soon
